TRIDON ▶

Tridon Australia was incorporated in 1976 and specialises in the distribution of products to the industrial, automotive, hardware and export markets. It is a 100% Australian owned and managed company.

Manufacturing

Tridon has invested heavily in manufacturing in Australia. It is a proud Australian manufacturer, designing innovative products to world class standards.

Products manufactured include a full range of solid and perforated band worm drive hose clamps and heavy duty T-Bolt hose clamps. Tridon can also design and produce purpose built clamps to meet unique fastening or sealing requirements.

Tridon's modern manufacturing equipment, machine tooling and assembly equipment is designed and integrated for efficiency, superior quality and on-time delivery.

All products are manufactured to either SAE or BS requirements and are accepted by all motor vehicle and industrial original equipment manufacturers. Tridon is constantly improving product performance, developing new products and processes through a team of highly qualified engineers and technicians.

Quality

Tridon's manufacturing and distribution facilities are TS16949 / ISO9001 quality accredited and ISO14001 environmentally accredited. Tridon is totally committed to quality and this focus has helped achieve world class status in manufacturing.

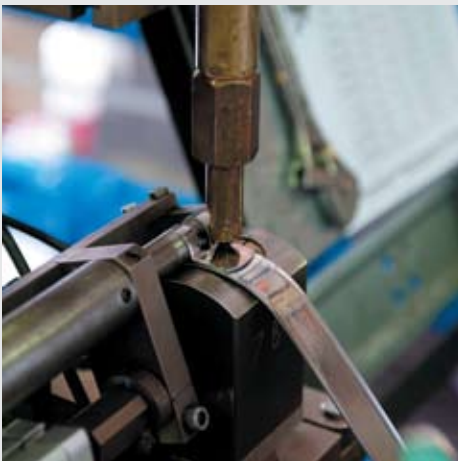

Product Range

Tridon Australia manufactures premium quality hose clamps and distributes an extensive range of products including Thermostats and Gaskets, Wiper Blades and Refills, Switches and Sensors, Radiator, Oil and Fuel Caps, Ignition Coils and Modules, Crank and Cam Angle Sensors, Flasher Units and Relays, Battery Terminals and Cables, Glow Plugs, Workshop Tools, Pullers and Hand Tools.

Brands distributed exclusively by Tridon include Toledo, Knipex, Rennsteig, Bikeservice, HIT, Sykes-Pickavant, Metrinch and Vitrex.

Support

Tridon has offices and distribution centres in each state of Australia as well as New Zealand. A professional customer service and technical support team is available for all products.

TRIDON

Hose Clamps

Since 1976 Tridon Australia has been at the forefront of hose clamp technology. With a comprehensive range and proven quality and reliability, Tridon clamps are second to none.

All Tridon hose clamps are manufactured to stringent quality standards. Research and development is ongoing to provide the most up to date range of market leading clamping products suitable for automotive, industrial, marine or general purpose use.

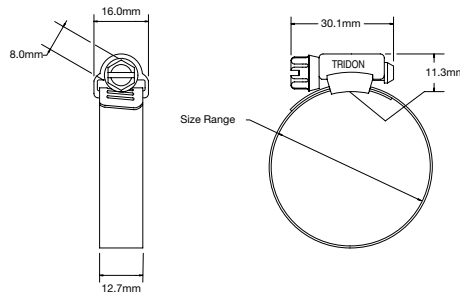

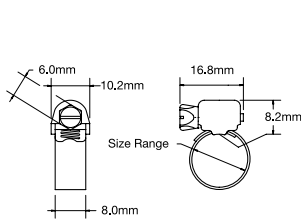

Perforated Band Clamps

Part Stainless Steel

- For automotive and general purpose use
- 301 stainless steel band
- Built to SAE J1508 standard
- Hexagonal head with screwdriver slot
- Used in OE applications
- Low free torque for ease of installation
- Flexible band for superior sealing, conforms to hose
- High strength for reliable sealing
- Refer to page 30 for packaging styles
- Made in Australia

Technical Specifications

Part No. MH004 – MH048

Series	MH (Micro Clamp)
Band	301 Stainless Steel
Housing	Mild Steel
Screw	Carbon Steel Zinc Plated (Hex Head)

Part No. HS006 – HS270

Series	HS (Regular Clamp)
Band	301 Stainless Steel
Housing	Stainless Steel*
Screw	Carbon Steel Zinc Plated (Hex Head)

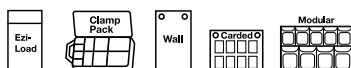

* Some sizes are manufactured using carbon steel zinc plated housing

- 430 stainless steel band
- Heavy duty, non-perforated band and housing
- Available with removable safety collar to prevent screwdriver slip injuries
- Rolled edge and smooth underside to prevent hose damage
- Technically advanced design improves sealing capability
- Refer to page 30 for packaging styles

Technical Specifications

Part No. MP000 – MP00

Series	MP (Micro Clamp)
Band	430 Stainless Steel
Housing	430 Stainless Steel
Screw	Carbon Steel Zinc Plated

Part No. MP0A – MP13

Series	MP (Regular Clamp)
Band	430 Stainless Steel
Housing	430 Stainless Steel
Screw	Carbon Steel Zinc Plated

T-Bolt Clamps

Part Stainless Steel, Heavy Duty

- For heavy duty applications where large tightening forces are required
- 430 stainless steel band and bridge - carbon steel, zinc plated bolt, trunnions and collar
- Rolled edge to prevent hose damage
- Easy installation - a bolt is used for tightening not a nut which ensures full travel when using a socket
- Extra solid construction with the highest grade materials and 3 welds per band on larger sizes
- Solid trunnions with hex head bolt
- Superior sealing - tighter seals at lower bolt torques
- Made in Australia

Technical Specifications

Series	TTBY (T-Bolt Clamp)
Band	430 Stainless Steel
Bridge	430 Stainless Steel
Bolt	High Tensile Carbon Steel Zinc Plated
Trunnion	Carbon Steel Zinc Plated
Collar	Carbon Steel Zinc Plated

T-Bolt Ultimate Clamps

Automotive Performance Applications

- For automotive performance and general applications including turbo charging, intercooler, air intake, radiator and exhaust pipes
- Narrow band size make this clamp ideal for automotive applications
- Clamps individually packed in popular sizes
- 430 stainless steel band and bridge, carbon steel, zinc plated bolt, trunnions and collar
- Easy installation – a bolt is used for tightening not a nut which ensures full travel when using a socket
- Made in Australia

Used on automotive induction pipe

Tri Strength Clamps

304 Stainless Steel

- For heavy duty use such as industrial, agricultural and truck applications
- Features a wider band and housing
- Constructed of heavier gauge material than a standard perforated band clamp
- All 304 stainless steel for corrosion resistance

QR Series

Quick Release Clamps

Part Stainless Steel

- Unique quick-release design between the one piece housing and band allows for quick and easy installation in restricted or difficult areas
- Ideal for applications where clamps must be open for installation
- Used extensively in the telecommunications industry on cable installations where open air application demands durability
- Can be joined together to achieve greater dimensions

User Guide

1. Loop disengaged clamp around object
2. Slip band through housing
3. Snap screw down and tighten

Rubber-Lined Clamps

Carbon Steel / 304 Stainless Steel

- For pipes, cables, groups of cables, hoses, etc
- The clip is available with zinc plated carbon steel or 304 stainless steel, the inside and edges of which are protected by a rubber lining
- On closing the band, the clamp adapts itself easily to the dimensions and shape required
- Impacts and vibrations are absorbed by the rubber lining
- Great resistance to water, wear, fluctuations in temperature and ageing
- Used in the automotive industry, mechanical and apparatus construction, electrical, hydraulic and pneumatic engineering, process industries, shipbuilding, refrigeration and freezing plants etc

Preform Band Clamps

All Stainless Steel

- Clamping system used on industrial hose connections
- Constructed of 301 stainless steel
- Double coiled and set to a specific diameter
- 3 band widths available in many sizes
- Refer to page 47 for details on Preform Band Clamping Tool

Ideal for industrial hose applications

See page 47 for details

Uni Band Clamps

All Stainless Steel

- Universal clamping system for industrial applications
- All 301 stainless steel for maximum tensile strength, superior durability and corrosion resistance
- Heavy duty, stainless steel band provided in 30 metre lengths, 4 widths and 2 thicknesses with buckle to suit
- Variable diameter covers a wide range of shapes and sizes to suit all types of applications
- Common applications include large diameter hose clamping, power poles and cables, clamping around pipes or tanks, concrete piping, cable bundling etc.
- Available with handy plastic reel for easier handling
- Uniband Clamping Tool (see page 46) enables correct tensioning of band and provides easy cut-off facility
- Uniband clamping tool supplied with complete instructions

Spring Lock Clamps

Stainless AISI 201

- Ideal for low pressure sealing applications
- Quick assembly, re-useable
- Interlocking, one piece band
- Available in 6mm & 8mm band widths
- Mechanical lock, non-welded
- For ease of installation use pincing pliers
- Stainless AISI 201

Constant Tension Band Clamps

Chrome Vanadium Steel

- For radiator and vacuum hoses in cars and light trucks
- Expands and contracts maintaining seal around hose
- Heat treated chrome vanadium steel with delta tone finish
- Size range from 6mm to 51mm
- For detailed specifications, technical drawings, order quantities and complete size range, please contact Tridon Customer Service

Double Ear Clamps

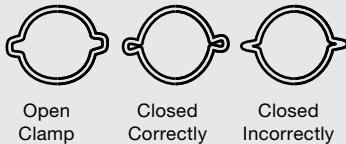

Zinc Plated Steel

- Suitable for use on compressed air, gas and liquid lines
- A simple and economical solution for many difficult tightening and sealing problems
- Zinc plated steel
- Mounting and dismounting is simple, the ear clamp is easily passed over the material that is to be mounted and is then squeezed together by pinching pliers (see page 47)

How to use a Double Ear Clamp

One ear should be closed all the way. When the second ear is closed, the first ear will open slightly. This creates a spring-like action which holds against pressure, vibration and hose shrinking caused by temperature changes or ageing.

Open Clamp

Closed Correctly

Closed Incorrectly

Pincing Pliers

SCP-1

FCP-1

DW Series

Double Wire Clamps

- Suitable for low pressure, flexible hose applications
- Expands and contracts maintaining seal around hose
- Three different colours - gold, silver, black
- Size range from 6.6mm to 75mm
- For detailed specifications, technical drawings, order quantities and complete size range, please contact Tridon Customer Service

Purpose Built Clamps

Tridon Australia can provide tailored solutions for complex sealing or fastening requirements.

Employing the very latest technology, our experienced engineers design and construct innovative solutions to meet challenging clamping applications. Rigorous testing and quality control ensures the production of premium quality clamps that meet or exceed defined specifications.

To discuss purpose built clamps please contact Tridon Customer Service.

TRIDON

Special Cut-Outs and Notches

- Perforated clamps with slots, holes or notches
- Drilled or pressed in band for special locating applications
- Enables a fixed location of the clamp
- Easy assembly

Spring Loaded

- Provides a constant tension when temperature variation can alter the diameter
- Manufactured to suit specific applications

Reduced Number of Perforations

- Designed to fit a specific diameter
- Upon tightening there are no exposed perforations
- Enables a 'solid band' solution for a perforated band clamp

Special Shapes and Sizes

- Unique sizes can be made to mould or contain unusual shapes
- A variety of different bending and forming techniques available

T-Bolt with Multiple Bolts

- For extra large clamping requirements
- Bolts can be oriented and positioned to suit specific requirements

Extended Head

- Extended head screw for ease of screwdriver access (particularly automatic screwdrivers)
- Assists with high speed assembly on production lines

Packaging & Merchandising

Tridon hose clamps are available in a variety of packaging styles to suit retail or trade requirements.

Carded and boxed clamps are available in attractive, colour coded packaging for easy identification. Bulk quantities are also available.

Tridon offers the largest and most innovative range of convenient merchandisers and workshop packs to store and display popular Tridon clamps.

TRIDON

Boxed Clamp

- Available in a variety of conveniently sized packs of 10 or 20
- Bulk quantities also available
- Packaging is colour coded to enable quick and easy identification
- All boxes are clearly marked with part number and barcode

Barcode Tagged Clamps

- Individually tagged with barcode for easy part number identification and barcode scanning
- Supplied in bulk boxes (minimum order quantities apply, see part number table for details)

Carded Clamp

- Handy carded packaging, ideal for use in retail and self-serve sales areas
- Colour coded backing cards make product selection easy
- Clamps secured behind blister to enable identification without opening the pack
- Available in popular sizes in full stainless or part stainless steel hose clamps, solid band or perforated band
- All cards individually barcoded
- Card dimensions 90mm (w) x 140mm (h)
- Supplied in outers of 10 cards

T-Bolt Ultimate

- For applications where superior sealing is required
- Individually packed in 16 popular sizes
- Ideal for automotive performance applications such as turbo charging, induction piping, etc.

Vehicle Handy Packs

- Contains useful sizes to fit hoses ranging from 6 – 57mm
- Ideally suited as emergency pack in service stations or DIY
- Attractive carded packaging

Merchandising

Carded Clamp Merchandisers

- Holds popular clamp sizes to suit many applications in all stainless or part stainless steel
- Attractive, convenient retail display for wall and pegboard mounting
- CCM01 and CCM02 contains 40 cards (5 per hook) or TTBU18M contains 18 cards (3 per hook)
- Cards are individually barcoded
- Dimensions 450mm (w) x 380mm (h)

Ezi-Load Merchandisers

- Display, organise and dispense popular MH/HS or MAH/HAS Series perforated hose clamps
- Each merchandiser contains a range of 300 popular hose clamps in all stainless or part stainless steel
- Durable metal frame provides easy storage for refill boxes
- Easy to position as a wall-mounted or freestanding unit
- Gravity fed box design allows for easy access of hose clamps
- Hose clamps can easily be returned into top of the box
- Re-order part number clearly marked on perforated tear-off strip
- Holds two boxes of each part number to manage stock levels
- Easy to refill when merchandiser needs replenishing
- Compact in size – only 310mm (w) x 760mm (h) x 200mm (d)

1 Remove perforated tear-off strip and reorder refill box required

2 To change refill boxes unfasten holding clip at top, remove empty box and insert refill

3 Gravity fed box system enables easy access to clamps
